# VINAYAK SHUKLA

Portfolio · vinku2004@gmail.com · LinkedIn · GitHub · 8826029573
New Delhi, India

## EDUCATION

**Guru Gobind Singh Indraprastha University** — New Delhi, India
- B. Tech - Information Technology — 2023 - 2027
- GPA 8.81 (through Semester VI)

## SKILLS

- **Programming Languages:** Python · JavaScript · TypeScript · C++ · Dart
- **AI/ML:** PyTorch · TensorFlow · RAG · LangGraph · LlamaIndex · Hugging Face · OpenCV
- **Frameworks:** FastAPI · React · Flutter · Streamlit · MERN Stack · MEAN Stack · n8n
- **Tools:** Git · Docker · VS Code · Cursor · Claude Code · Codex · Android Studio · Google Colab

## PROJECTS

- **Wired AI :-**
  - Built an agentic voice research assistant using FastAPI, LangGraph, and LlamaIndex that answers questions from uploaded documents and the web using Retrieval-Augmented Generation (RAG).
  - **Tech Used:** Python · RAG · React · ChromaDB · LangGraph · STT/TTS · LlamaIndex
  - **GitHub:** https://github.com/V-inaya-K/Wired-AI
- **Modco :-**
  - Developed a reinforcement learning–based AI content moderation system that detects toxic, spam, and unsafe content with automated evaluation and grading pipelines.
  - **Tech Used:** Reinforcement Learning · NLP · Hugging Face · ML · Python · LLMs · Docker
  - **GitHub:** https://github.com/V-inaya-K/Contend-Moderator-RL
- **Rentify :-**
  - Built a peer-to-peer rental marketplace that enables users to list, discover, and rent everyday items with secure bookings, verified users, and flexible rental durations.
  - **Tech Used:** Flutter · Supabase · Riverpod · PostgreSQL · Google API
  - **GitHub:** https://github.com/V-inaya-K/Rentify
- **Xecure :-**
  - Built an AI-powered image verification platform that detects fake refund images, AI-generated photos, and manipulated visual evidence using computer vision and risk scoring.
  - **Tech Used:** Python · FastAPI · Mern Stack · Tailwind CSS · AI/ML
  - **GitHub:** https://github.com/V-inaya-K/Xecure

## WORK EXPERIENCE

- **Engineering Intern at Neoflo.ai** — Sept. 2026 - Present
  Developed end to end customer facing RAG Agents and Internal Tools.

## CERTIFICATIONS

- **NPTEL - Introduction to Large Language Models**
- **NPTEL - Introduction to Machine Learning**
- **Simplilearn - MEAN STACK with AWS and Docker**

## ACHIEVEMENTS

- Led various teams of hackathons to deliver meaningful and impactful solutions.
  - NASA Space Apps Challenge Noida(Top5)
  - Google Solution Challenge (Internal Hackathon Winners)
  - Smart Delhi Ideathon 2025 (Under Top 30 Teams)
  - Smart India Hackathon (Internal Round Winners)
  - VesHack (GGSIPU)
